**BECE**, from Ewit Greenwich Classical Academy                 **August 2009**

## HONORS AND AWARDS
**Employee of the month**                                          **June-September 2014**
         Awarded for the best customer service
         relations and revenue returns during that
         period. I was later promoted to the position
         of a welfare manager.

## RESEARCH EXPERIENCE
With a few years of software development experience gained while working with some companies and clients, I have amassed a wealth of experience in mobile application development with respect to platforms like Android, iOS and the web. My dedication to service has won me recommendations and awards from satisfied clients and businesses and I am proven in my ability to maintain that integrity.

## TEACHING EXPERIENCE
**University of Ghana**, Legon                                      **November 2018 to date**
**Course Facilitator**, Department of Computer Science
- I taught Android applications development to internal and external students and workers who were interested in the field and wanted to gain some professional level of expertise.
- Developed quizzes, exams, and homework
- Revised the syllabus to meet accreditation standards
- Coordinated grading and labs with a team of 4 teaching assistants
- Organizing committee member in the Google AI program held at the Great Hall

**University of Ghana**, Legon                                     **September 2018 to Aug 2019**
**Teaching Assistant**, Department
- I was a teaching assistant in this department as my National Service. I assisted in

teaching courses such as Web development, Python, C++ and Java. I was also a member of the organizing committee of the Google AI event that was held at the Great Hall of this University during the last few months of my service
